

Mobile Vendor Managed Inventory

By analyzing your processing and receiving costs, in addition to your specific needs, our Vendor Managed Inventory program reduces inventory, eliminates downtime and can generate significant cost savings. We've combined the features you love from our traditional VMI with the flexibility of a mobile unit to bring you our on-the-go program. Our mobile VMI can be customized with products stocked based on your needs.

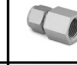

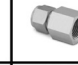

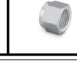

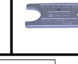

Our mission is to ensure you have the components you need when you need them. At the same time, we aim to reduce your procurement and inventory costs.

To restock, please contact Swagelok Kansas City at 913.432.4884 or service.pendleco@swagelok.com and reference mVMI.

Features & Benefits:

Service Support

- One of our associates will periodically service your bins to ensure inventory levels are to your liking.
- Need quantities adjusted? Your service associate's contact information will be located inside every bin.

Customizable graphic wraps

- Allows you to quickly identify parts by Swagelok part numbers, descriptions and images on the wrap, which simplifies the reorder process.

Cold rolled steel bins with handle

- Provides an easy-to-carry case for the parts you need to any project you're working on.
- Need more/different parts? Our bins have adjustable dividers, providing more than enough room for customization.
